

The Rutgers School of Nursing -
François Xavier-Bagnoud (FXB) Center presents:

Webinar:
**Beyond Risk: Reimagining HIV Youth Engagement Through
Trust and Connection**

TUES., NOV. 10TH @ 1:00 PM ET

LEARNING OBJECTIVES

- Describe HIV epidemiologic trends among adolescents and young adults in the United States.
- Discuss challenges and/or barriers to engagement for adolescents and young adults.
- Summarize strategies to meaningfully engage adolescents and young adults in HIV prevention and care services.

SPEAKER

Kahlib Barton

Independent Public Health Consultant
Black and Pink, Board of Directors

Engaging adolescents and young adults is essential to improving HIV prevention, care, and treatment outcomes. This interactive workshop will explore youth-centered strategies to build trust, reduce HIV stigma, and address barriers to accessing and remaining engaged in HIV services. Participants will learn practical approaches to creating environments that elevate youth voices, promote autonomy, and empower young people to take an active role in their sexual health and overall well-being.
